

## **CIBIDPW AB- AUTOMATIC BARREL FILLING MACHINE**

### Features

The Automatic Barrel Filling Machine, also known as a drum filler, is a versatile and efficient solution for filling various liquids with different viscosities. Its top-filling design offers a range of features to streamline the filling process.

This machine excels in precision with its ability to automatically subtract the weight of the container, ensuring accurate measurements. Users can customize the desired liquid weight within the weighing scope, allowing flexibility in filling quantities. To prevent overfilling, the machine automatically adjusts the filling speed, providing a fast or slow option.

Operators benefit from the displayed statistical data, including cumulative filling frequency and total filling weight. Additionally, the machine is equipped with a printer output interface for documentation purposes. It incorporates imported weight instruments and sensors for reliable performance.

- User Friendly Design
- Wide range of Drum filling settings, for various settings.
- Automatic Container Tare Function
- Various Interfaces, Rs232/Printer/Modbus/4 to 20 MA etc
- Fast feed ,Slow feeds Auto Cut off, Recording , With Multi Mode Function to ensure Accuracy in Every Fill.

### Application

Industries like Oil, chemicals, paints, and more.

### Specification

<u>MAKE</u>	<u>CIBI</u>
MODEL	DPW AB FILLING MACHINE
MAX.CAPACITY(g)	25kgx20g To 300kgx100g
No of heads	1
PLATFORM SIZE	ROLLER BED 600X600mm (TO MATCH WITH EXISTING CONVEYOR)
CONTROLLER	MICRO PROCESSOR
PRODUCTION CAPACITY	40-100 PER HOUR
WEIGHT UNITS	Kg,
OPERATING TEMPERATURE	0°C ~40°C
POWER	AC 220~240, 50/60Hz

# giri brothers

For All Your Weighing Needs

## Why Choose products of **giri brothers**.

- 1) All the scales are tested up to full load (apart from the other test)
- 2) All commercial weighing machines & measures ,will be accompanied by verification certificate , issued by the department of legal metrology, valid through out tamil nadu ,government of india. ( For other states in India, we will arrange our network , for the stamping)
- 3) Warranty & service support– We assure you the best after sales support. Our reputation is service . We offer service at your door step(Chennai only), for our industrial range of products. We stock enough spares (10 years minimum) , eliminating the disadvantage of an International brand.
- 4) After the warranty period , we would remind you with the renewal of your w& m certification. Periodical maintenance schemes also available.

The most important thing , we were listening to the customers for the past 46 years,  
and we will have someone to render service , in the future decades to go.
